SUMMARY

I'm a result-oriented iOS engineer with more than 5 years experience. I always create my projects in knowledge of the importance of creating source code that highly readable and easily maintainable with architectures. Also I am eager to learn new technologies and always look to ways to better myself in this rapidly changing industry.

EXPERIENCE

- Jan 2021 - ...

Founder

futureworks

I'm providing iOS native coding service with Swift. According to the need I give assistance, maintenance or deliver the project to the store from the scratch. Public portfolio can be accessed from <https://futureworks.com.tr>

- July 2017 - ...

iOS Engineer / Mobile Team Leader

Mobilist Bilisim Sistemleri

I'm responsible to create, develop and maintain iOS projects. Usually I'm working on Swift projects but also sometimes I maintain some Objective-C projects. Besides I'm the team leader of the mobile team in the company since 2021.

- August 2014 - September 2014

Software Developer Intern

Microsoft Turkey

I took lessons about software development and I was responsible to create a new Windows Store or Phone application. At the end of the program I won an award with the application I created.
