About Me

Hi, I'm Kagan. I'm 25 and currently living in Istanbul Turkey. First, I had a curious about software programming when i was in high school and I enrolled web programming department in high school. Then I wanted to improve myself and studied at Trakya University in department of Computer Tech. and Information Sys. I'm currently working as a Mobile Application Developer and at the same time I'm a team leader. At the same time I'm open for learning every kind of technology. I listed some projects that I developed on my website. Also sometimes I share some small projects for the beginners on GitHub. Additionally I'm not afraid of coming across with problems. I like to solve problems in software development even every part of life.

Education

• 2013 - 2017

Trakya University - Computer Technology and Information Systems (B.S.)
